**Telephone:** 2084123214  
**Address:** 16313 Frost Rd.  
CALDWELL ID, 83607

**Name of Utility Company:** Idaho Power

**Comment:** Please refer to the scholarly documentation submitted by David Boleneus 24 January, 2018. He offers extensively footnoted, scientific proof that the climate change and carbon charges upon which HydroOne policies are based are a hoax.

These unnecessary restrictions and price increases have a detrimental effect on HydroOne customers in every way; affecting food prices, employment, business sustainability, and more.

Furthermore, HydroOne has a history of ignoring customer concerns over their exponentially raising rates; and is not responsive to Freedom of Information Act requests.

Any merger or association with HydroOne must be rejected.

**Comment:** In addition to my previous comments, one important reason not to subject people to rate increases in the name of combatting "climate change":

**NO ONE KNOWS WHAT THE OPTIMAL CLIMATE IS!**

**Name of Utility Company:** Avista

**Comment:** I am requesting again that IPUC NOT approve the Avista-HydroOne merger deal. HO has a horrific track record for high rates, they have a green energy policy that Idaho will effectively get dragged into, there are many questions about the control HO will have over how Avista is managed with Canadian board members, and Ontario has an upcoming election which may drastically alter how HO is managed, potentially affecting Idahoans further. Keep Idaho independent from this foreign deal.

**Address:** 2247 W. Santa Clara Dr.  
MERIDIAN ID, 83642

**Name of Utility Company:** 1942

**Comment:** It is my strong opinion that no foreign entity, private or otherwise should be allowed to buy a utility company in the United States, especially where Idaho water and dams are at stake. Please do not allow the sale of Avista to a Canadian firm!

**Name of Utility Company:** Idaho Power

**Comment:** I am absolutely opposed to a merger of any U.S. utility with any utility under the control of a foreign government. That is nutso, no matter what the other utility is like.
